

O88

Semiautomatic Bag Closing Machine

The Kwik Lok® O88 Semiautomatic Bag Closing Machine closes bagged products utilizing automatic bag closures and bag closure-labels. The O88 is a fixed speed machine and will close bags up to 50 per minute in a vertical application and up to 35 bags per minute in a horizontal position. This is the most versatile and hard-working semiautomatic on the market.

TYPICAL APPLICATIONS

- Vertical Packages
- Horizontal Packages

SPECIFICATIONS

Height (max) 39"
Width 22.5"
Length 17"

Due to its inherent design, the O88 has a packaging weight limitation of 5lb. Packages that exceed this amount must be supported underneath by a conveyor belt or similar device.

The O88 is supplied with a table-top stand to be used in hand feed operations. Optional floor stands are available for hand fed and automatically fed operations.
