

883

Thermal Printer

The Kwik Lok® 883 Thermal Printer utilizes a programmable thermal transfer printer manufactured by markem-ijaje® Corporation. The system delivers high resolution printing at speeds that match the Kwik Lok closer it is adapted to. The printer requires both electrical and air supplies.

STANDARD FEATURES

- Out of closure sensor
- Power saving features
- Digital ribbon save mode to reduce ribbon consumption

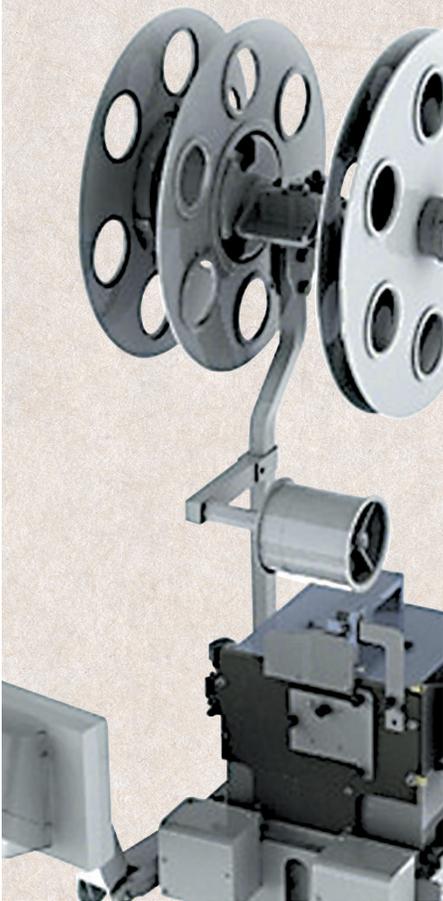

TYPES

883 M is designed to be used with the Kwik Lok 865A Automatic Bag Closing Machine. It utilizes the SmartDate X40 printer. Printing is on the closure-label only.

883 N Thermal Printer adapter kit is for mounting a markem-ijaje® SmartDate®X60 Thermal Printer on an 872XLS Bag Closing Machine. This system can provide printing capability up to 110 packages per minute on J-NRP, JM-NRP, and VW-NRP closures.

883 P Thermal Printer adapter kit is for mounting a markem-ijaje® SmartDate®X60 Thermal Printer on an 872XLS LM Bag Closing Machine. This system can provide printing capability up to 105 packages per minute on J-NRP closures. With the appropriate anvil, printing on the closure of the CFJ, PF, and TF closure-labels is possible.

883 S Thermal Printer adapter kit is for mounting a markem-ijaje® SmartDate®X60 Thermal Printer on an 893B Bag Closing Machine. This system can provide printing capability up to 120 packages per minute on J-NRP and JM-NRP closures. The print speed is reduced for closure-labels but with appropriate anvil, printing on the closure of the CFJ, PF, PFM, TF, and TFM closure-labels is possible.
