# 904

Thermal Ink Jet Printer

The Kwik Lok® 904 utilizes the VIAjet L12 series manufactured by Matthews Marking Systems™ which is a programmable thermal ink jet printer. The printer speed coincides with your closing machine, imprinting up to 120 closures per minute.
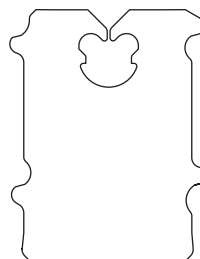

STANDARD FEATURES

- Easy to use Touch Screen Controller to build your own formats

- High resolution output gives you the ability to print complex 2D barcodes and QR codes

- Industrial, desktop printer-sized ink cartridge makes for quick and easy ink cartridge exchange and cleaning

- Low maintenance with only one moving part

- USB port allows you to easily transfer message formats and settings

- MPERIA™ software allows for simple code creation up to fully customizable date and time formats, automatic date changeover, sequential numbering print capabilities, and variable data entry
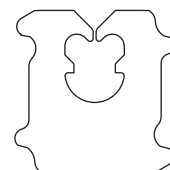

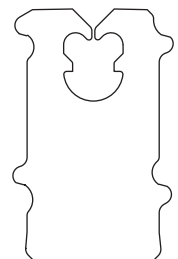

CLOSURES

J-NRP	.030"	JM-NRP	.030"	V-NRP	.030"	VW-NRP	.030"
K-NRP	.045"	KM-NRP	.045"
		KM57-NRP	.057"

Various plastic thicknesses (in red) handle a wide range of package types, weights and sizes.

Closures can be printed with price, date and/or code information.

Available colors vary with plastic thickness:
.030" – 7 colors   .045" – 3 colors   .057" – white only

PRODUCT TRACEABILITY ON THE KWIK LOK BAG CLOSURE
We provide low cost, efficient options for printing traceability information on your bagged products. Printing on the Kwik Lok bag closures allows you to trace packages back to packaging lines and individual products. It's easy to add up-to-date necessary information on your packages with the 904 thermal ink jet system from Kwik Lok.
