

Food Safety

As a manufacturer and distributor of food packaging, Kwik Lok recognizes the importance of food safety.

Kwik Lok is transitioning from previous GMP certifications, to the FSSC 22000 Food Safety Management System which integrates a HACCP analysis and HACCP plan along with prerequisite programs in the food safety management system.

FSSC 22000 is recognized by GFSI, and our facilities in Canada and the U.S. are currently certified by SGS North America, Inc.

We are committed to food safety, quality and continual improvements and assure that we are offering customers a food-safe packaging, held to high global standards.

Food Safety & Compliance Certifications

- FDA Statement
- Sedex Statement
